DETAILED ACTION

Response to Amendment

1. Applicant's cancellation of claims 1-104 and addition of claims 105-116 has been fully considered and is entered.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Regarding claims 107-110, 113-116, the phrase "range of about" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 105-116 are rejected under 35 U.S.C. 102(b) as being anticipated by Buynak, U.S. Patent No. 5,394,470. Referring to claims 105, 106, 111, 112, Buynak discloses a method of augmenting a video signal wherein augmenting pulses are added to the horizontal sync pulse intervals of a video signal to prevent a copy of the modified video signal (Abstract), which meets the limitation of adding a pulse to a selected position in a back porch region following a horizontal sync pulse of the copy protected video signal. The augmenting pulses can have a

negative amplitude, which meets the limitation of adding a pulse having a selected negative amplitude.

Referring to claims 107-110, 113-116, Buynak discloses that the augmenting pulses have a width of at least .5 ms (Col. 10, lines 40-42), which meets the limitation of negative pulses having a width in the range of 1 to 2 ms, and the augmenting pulses have a approximate amplitude of -40 IRE units (Col. 10, lines 43-45), which meets the limitation of the negative pulses in the range of about -10 to -20 IRE units.

Double Patenting

6. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

7. Claims 1-12 of patent #6,501,842 contain every element of claims 105-116 of the instant application and as such anticipate claims 105-116 of the instant application.

8. "A later patent claim is not patentably distinct from an earlier patent claim if the later claim is obvious over, or **anticipated by**, the earlier claim. *In re Longi*, 759 F.2d at 896, 225 USPQ at 651 (affirming a holding of obviousness-type double patenting because the claims at issue were obvious over claims in four prior art patents); *In re Berg*, 140 F.3d at 1437, 46

USPQ2d at 1233 (Fed. Cir. 1998) (affirming a holding of obviousness-type double patenting where a patent application claim to a genus is anticipated by a patent claim to a species within that genus). “ ELI LILLY AND COMPANY v BARR LABORATORIES, INC., United States Court of Appeals for the Federal Circuit, ON PETITION FOR REHEARING EN BANC (DECIDED: May 30, 2001).
